

# Nick of Time

Guitar: Capo 7<sup>th</sup> fret

Riff: A /// G/// F#m/// E/D/ (arpeggios on 1<sup>st</sup> three chords)

**A riff**

In the nick of time

**A riff**

You will find your way

**A riff**

In the nick of time

**A riff**

A path from night to day

**E7**

You're feeling desperate, you feel you're alone

**E7**

Nowhere to turn for help, and nowhere to run

**D**            **E7**            **A**            **(walkdown)**

What do you see . . . when you lay awake at night?

**D**            **E7**            **A**            **(walkdown)**

Who do you really want to be?

**D**            **E7**            **A**            **(walkdown)**

Follow your dreams, don't ever let them slip away

**D**            **E7**            **A**            **(A riff)**

Good things happen in the nick of time

In the nick of time

You will find true love

In the nick of time

An angel from above

That desperate feeling moves in to stay

You feel a clock ticking, it won't go away

What do you see . . . when you lay awake at night?

Who do you really want to be?

Follow your dreams, don't ever let them slip away

Good things happen in the nick of time

In the nick of time

You will find me there

In the nick of time

Any time, any where

Your life is a drama, twisted and strange  
But you are the author, and the story can change

What do you see . . . when you lay awake at night?  
Who do you really want to be?  
Follow your dreams, don't ever let them slip away  
Good things happen in the nick of time
